Dear George,

Very many thanks for your kind letter of the 24th of February which reached me in Madrid. I am now answering your kind lines from London where I shall remain probably for the next two months approximately.

Will you be so good as to send your letter announcing the arrival of my very dear picture to the above address, in order that I shall not have to worry about the work. I am very pleased that this picture is now in your possession, as you have admired it so much and that it pleases you.

With regard to my various and many exhibitions and books at present in print, I am not as yet able to tell you exactly when I shall be in New York. But I will most certainly inform you at once when the time has come to leave for the United States.

With my best regards to yourself, Mrs. Alfred and her  
Mother,

Yours sincerely
