My dear Prieto,

With a view to preparing an article for my papers in Latin America, I would be grateful if you could let me have some photographs of the sets of decoration you doing for John Gielgud. Perhaps you could also let me have some accompanying notes describing them so that I could use these as background for the article.

I feel sure that the subject is of great interest for the South American newspapers, especially in view of the fact that the play in preparation is of Martinez Sierra.

Looking forward to hearing from you, and with kind regards,

Yours sincerely,

Manuel Chaves Nogaes
