Dear Mr. Prieto:

Mr. Davis has shown me the photographs of your paintings and drawings, and they fascinate me. I wish I had been in London in time to see your exhibition there, for I would have been most interested to see how you did the portraits which seem to have littered the show, according to the exhibition folder.

I look forward to seeing you and your work at the Hugo Gallery this fall. I agree with Mr. Jolas that you could probably do something either as a cover idea or an illustration for FLAIR, but I would have to see more of your work to be sure.

Unless we hear from you to the contrary, I shall hold your photographs until the Hugo Gallery reopens and we can give them to Mr. Jolas to keep for you. If you prefer that we send them to you in London, do let us know.

Sincerely,

*Fleur Cowles*
